

TERRIFIC STORM HITS NORTH-PACIFIC COAST

(Special Service to Glendale Evening News)
SEATTLE, Wash., Nov. 27.—In the wake of a terrific storm which lashed the coast and inland harbors throughout the night, playing havoc with shipping at sea and other property ashore, lay a scene of wreckage early today that has been unparalleled in the last two years. A general crashing of glass accompanied the storm throughout the city. Street cars were halted, blocking traffic, and telegraph and telephone wires were blown down.

PICKFORD-MOORE DIVORCE MIXUP IN COURT

(Special Service to Glendale Evening News)
MINDEN, Nev., Nov. 27.—A long and spirited court fight over the legality of the divorce of Mary Pickford, film favorite, from Owen Moore, actor, was practically a certainty today when attorneys assembled here. Attorneys for Mary will attempt to quash the action brought by the State of Nevada to annul her divorce. One of the first moves, it was learned, probably will be an attempt by attorneys for the state to disqualify Judge Langan, who is presiding in the case. He was the judge who granted the original divorce.

AIRPLANE BOMB EXPLOSIONS IN FACTORY

(Special Service to Glendale Evening News)
ROME, Nov. 27.—Twenty persons are dead and missing in a series of explosions of airplane bombs at a munitions factory near Vergiate, thirty miles from Milan, a dispatch today said. The explosions were continuing.

PRAISES SERVICES

APPRECIATION FOR WORK DONE
BY A. J. VAN WIE GIVEN
BY CITY MANAGER

During the meeting of the city trustees last night reports were presented from the building department for the month of November to date and in this connection the city manager presented a communication in which he expressed appreciation for the service rendered by A. J. Van Wie as superintendent of buildings in organizing that department. Reports ordered to be filed.

The city manager in a written communication recommended accepting the bid of the Pike Auto and Trailer Works to supply the city with one three and one-half ton pole dolly at the price of \$445 as quoted in their bid. On motion of Trustee Robinson the recommendation of the city manager was approved and the bid ordered to be accepted.

The city manager reported application from the Woods Beekman Lumber company asking permission to remove sand and gravel from the Verdugo wash to a greater depth than five feet. He recommended that permission be granted as requested, to remove sand and gravel from the wash to a depth not to exceed ten feet, excavation not to exceed thirty feet in width at the bottom and for a distance not in excess of 1000 feet. On motion the recommendation was approved and permission granted.

No Action to Repeal

Trustee Henry made a motion that the ordinance presented to the board at its previous regular meeting repealing the ordinance regulating the maintenance and operation of motion picture establishments and studios in this city, be adopted. There being no second to the motion no further action was taken.

A resolution of intention providing for the abandonment of an alley in tract 3196 was on motion of Trustee Bartlett adopted as resolution 1144.

A resolution adopting map of tract 3942 was on motion of Trustee Stephenson adopted as resolution 1145.

The city marshal presented the appointment of J. L. Brown as patrolman, approved by the city manager, and on motion the appointment was approved by the board.

Requests for permits to sell milk were received from the following persons: Mrs. N. G. Wheeler, 1320 East Harvard; C. Smith, 809 South Verdugo Road; Mrs. M. Feary, 1024 South San Fernando Road; W. F. Kaiser, 1322 East Harvard. All being approved by the milk inspector, were granted.

An application from F. R. Soderstrom and R. A. Bustner for a permit to conduct jitney business was referred to the city manager.

Demands were presented and referred to the finance committee. Later the finance committee reported back the demands approved and on motion of Trustee Stephenson, warrants were ordered to be issued in payment of same by the following roll call: Ayes, Bartlett, Henry, Robinson, Stephenson, Shaw, Noes, none.

WEATHER FORECAST — Tonight fair. Sunday unsettled with increasing cloudiness.

EXTEND DISTRICT

PROPOSED ASSESSMENT LINES
ARE ENLARGED; REPORT ON
COMPLAINT IS MADE

At the meeting of the city trustees last night the city engineer presented a map of a proposed assessment district for the opening and widening of Los Feliz road between San Fernando Road and Central avenue. On motion of Trustee Stephenson the district as shown on the map presented was ordered to be extended northward on Central avenue to Broadway and to extend half a block easterly and westerly on both sides of Central avenue.

The city attorney reported in regard to the complaint and request of Amanda Fenton in regard to certain water pipe removed by the city from a lot owned by her in the Max Muir tract; that in view of the fact that sale of this lot had been made by the city to the Bank of Italy with the understanding that the pipe be removed, he recommended that the application be denied and on motion it was so ordered.

An application was presented to the board from John Bretz, Jr., for electrical power with which to operate pumping apparatus and the same was referred to the city manager for a report and recommendation.

War Veteran Passes

E. L. Young, late of 467 Riverdale Drive, a Spanish-American war veteran, died Wednesday evening after a lingering illness. He leaves a wife and two children. Funeral services were held this afternoon at 2:30, from L. G. Scovern's funeral parlors, under the auspices of Glendale lodge No. 331, Knights of Pythias. Interment was made in Grand View cemetery.

Mr. Young had been a resident of Glendale for twelve years or more. He was a member of Company H, 29th Brooklyn Infantry, and served in the Philippines.

Light Installation

Orders received by the public service department for light installations and meter readings show that S. D. Smart is moving from 505 North Jackson to 701 East Raleigh, R. Frazee from 404 West Colorado to 211 Milford, Mrs. J. Sisson from 103 Los Feliz to 124 West Palmer, Mrs. Straight from 319 East Dryden to 316 West Elk.

New houses nearing completion, as shown by requests for installation of electric meters are: Mrs. F. B. Crouch, 517 North Maryland; W. C. Hollins, 807 Melrose, and Mrs. E. A. Jacobson, 220 South Central avenue.

Miss Webster Weds

Miss Leola Webster, youngest daughter of Mr. and Mrs. J. H. Webster of Park and Central avenues, was quietly married in Los Angeles Wednesday morning to Jack J. Bresnahan, a druggist of Needles, California. Mr. and Mrs. Bresnahan motored to San Diego for their honeymoon, and on their return will make their home in Needles. The bride was a last June graduate from Glendale Union High school.

SEEK SITE FOR
CITY'S CENTER

NO COMMISSION TO BE PAID BY
TRUSTEES IN SALE, IT IS
ANNOUNCED

CALL UPON PRIDE

COMMITTEE IS SELECTED TO
RECEIVE OFFERS FOR
SUITABLE GROUND

The board of trustees of Glendale is seeking a site for the city's recreation center, the voters, at the election held the same day as the general election, having decided to spend \$100,000 for the improvement.

But—
Real estate men—or anyone else—expecting to make a fat commission out of the sale to the city of the site for the recreation center, are doomed to disappointment.

For—
The board of trustees, in session last night, individually and collectively, announced that no commission was to be paid for the sale of a site.

And—
On motion of Trustee Stephenson, a committee of three was appointed to consider sites—and see to it that there was no profiteering. The committee is composed of Trustees Shaw, Bartlett and Stephenson. This committee is empowered to receive and consider sites suitable for the recreation center and report to the board as a whole the locations and prices asked.

High Prices Not Wanted

"It must be made plain that just because the city is in the market for a desirable bit of land that gives no one the right or authority to slap an unreasonable price on the property," asserted Trustee Stephenson. "The city should not have to pay a commission in making the purchase."

"Exactly!" exclaimed Trustee Henry. "I want to say that not a cent of commission should be paid by the city. Owners of suitable ground for the recreation center should have—and I believe they do have—enough community pride to prevent the placing of an unreasonable figure on property under consideration. I will have nothing to do with any site that calls for a commission to effect its sale to the city. The people have voted the bonds for the recreation center; the people expect a just price to be paid for the site—and there is absolutely no reason why it is necessary for anyone to add the commission to the site's price."

"That's right," said Trustee Stephenson. "And I believe that if there are any holding options on desirable sites in the hope of making a commission, they will view this matter in the light of community benefit and cancel the options and permit the sites to be offered to the city at a price that does not include a commission."

In the general discussion that followed, it was agreed that realty dealers were expected to donate their services to the city in the selection of a site and, because of the fact the recreation center is a community project and for the improvement of Glendale, see to it that all sites offered have attached the lowest price it is possible to fix.

Hosts at Dinner

Mr. and Mrs. B. C. Spears of 718 East Agacia street entertained a number of friends at a turkey dinner Thanksgiving day. Two delicious turkeys had been prepared, one of which weighed over twenty pounds. These two turkeys were raised by Mr. and Mrs. Spears, who have a small chicken ranch. Lovely table decorations of roses and violets were used, small Cecil Brunner roses were placed by each place card. These flowers were also raised in their own garden. The guests were Mr. and Mrs. R. E. Cochran of Morrison, Illinois, Harry Beach of New York, Mrs. F. W. Spears and son Harry of Topeka, Kansas; Mrs. M. J. Burns of Los Angeles, Mr. and Mrs. J. F. Boyer and daughter Lina of Los Angeles, Mr. and Mrs. W. T. Spears and son of Gardena, and Mr. and Mrs. Geo. W. Spears and son of Glendale. The afternoon was spent in music.

Permit for Home

Tip Taylor has taken out a permit for the erection of a five-room residence and garage at 464 West Broadway.

IN FAVOR OF
IMPROVEMENT

OF BRAND BOULEVARD, BUT NO
HASTY ACTION TO BE TAKEN
BY THE COMMITTEE

WORD PICTURES

FIFTY THOUSAND POPULATION
FOR GLENDALE IN 1930
PREDICTED

Optimistic visions of what Glendale would be in 10 years hence were word-painted last night at the mass meeting at the high school auditorium in language vivid and eloquent.

There was a goodly attendance at this meeting, which was called for the purpose of considering the advisability of taking steps toward the improvement of Brand boulevard. City Manager Watson, who called the assembly to order, expressed surprise that there was such a large attendance. "Let George do it" is evidently a sentiment that does not prevail in Glendale when action is called for involving the good of the city.

Manager Watson introduced City Attorney Evans, who suggested plans for inaugurating the movement contemplated and took up the legal aspect of the proposition. He gave estimates as to what the work would cost the railroad company now but as there is no possibility of the work's being begun for a year or more yet, it will only complicate and cloud the situation by giving these figures general circulation. The city attorney simply quoted the figures as coming from the Pacific Electric company, which added them to fortify itself in its opposition to the whole scheme. The speaker said that this opposition was expected and simply followed the company's preliminary attitude in all such movements. He believed, however, that when it was demonstrated to the Pacific Electric company that there existed in Glendale a practically unanimous sentiment in favor of the lowering of the tracks on Brand boulevard and the widening and paving of that thoroughfare from Colorado street south to the former Glendale line, the company would eventually come to terms.

It was brought out during the general discussion that followed that the company had made tentative promises a few years ago to lower the track bed under certain conditions and that the company realized now as well as do the people of Glendale that the time has about arrived to seriously consider the improvement.

City Manager Watson said that the city would co-operate in every way possible to bring about the contemplated improvement.

As soon as the brief addresses of Messrs. Evans and Watson had been finished, Attorney M. B. Jones was selected as chairman of the meeting. A general discussion then followed.

Professor Chandler expressed himself as heartily in favor of the improving of Brand boulevard to the old Glendale-Tropic line, but he questioned the advisability of attempting the work now under the present high-cost conditions, and thought that definite action should be postponed.

James Neill eloquently described the beauties of Brand boulevard and the advantages of such a thorough improvement. (Continued on Page 3)

PREPARING CALL

REPUBLICAN LEADERS GATHER
TODAY IN LOS ANGELES
TO MAKE PLANS

Prominent republicans in the ninth congressional district are holding a meeting in Los Angeles today for the purpose of preparing a call for an official conference to consider a candidate to fill the vacancy caused by the death of Congressman-elect Van de Water. W. E. Evans, city attorney of Glendale, was invited to the meeting, but owing to a previous engagement, was compelled to send his regrets. He, however, delegated John Robert White to attend the session.

A number of prospective candidates are being mentioned by republican leaders and among them is City Attorney Evans. He is favorably known in Glendale and throughout the district and many of his friends are urging him to permit his name to be brought forward for the congressional candidacy.

C. E. CONVENTION
FOR GLENDALE?

STATE GATHERING MAY BE
HELD IN THIS CITY NEXT
JUNE IF PLANS SUCCEED

EXTEND INVITATION

CITY TRUSTEES ISSUE BID TO
HAVE DELEGATES CONVEY
HERE FOR WORK

Opportunity to be the host to more than 3,000 delegates to the state convention of the Christian Endeavor is presented to Glendale.

The state convention will be held next June in southern California, the exact date being as yet undetermined. Glendale is the choice of a number of Christian Endeavor leaders for the meeting place of the convention and, at the session of the city trustees last night, a committee of three representing the religious organization appeared and made the request that the trustees extend a formal invitation to the convention to meet here. The trustees were unanimous in extending the invitation.

The committee appearing before the trustees was composed of J. A. Newton, Rev. W. E. Edmonds and C. C. Stoier.

"The state Christian Endeavor convention will meet in southern California next June," said Mr. Newton, in explaining to the trustees the purpose of the committee's visit. "A committee meeting is to be held immediately in Los Angeles to select a city in which the 3,000 and more delegates will meet. There is reason to believe that Glendale (Continued on Page 4)

Another Booster

From president of a large bank to owner and proprietor of an up-to-date poultry ranch is a promotion, says Mr. Liggett, who has resigned as a bank president in his Arkansas home to buy the H. H. Chapman ranch, 1122 East Wilson avenue.

Mr. Liggett will make his dream of living in the great out-of-doors of California come true by managing the ranch himself. He is already an enthusiastic Glendale booster, having chosen this city out of many locations suburban to Los Angeles. Mr. Liggett considers Glendale the best city for a home, in every particular.

Serve Duck Dinner

Mr. and Mrs. J. R. Mitchell and daughter Marion entertained at their home, 705 South Verdugo road, with a sumptuous duck dinner on Thanksgiving day. All the other good things that go to make up a Thanksgiving feast had also been provided. The following relatives and friends of the family were present: Mr. and Mrs. H. A. Strong and son William and daughter Maurine, Mr. and Mrs. Sherman Strong and son Robert of Sauk Centre, Minn.; Mrs. John Ramage of Berkeley, California; Mr. and Mrs. Wm. Brown and daughter of Glendale, Mrs. Christine Bower and daughter Jeanette of Sheldon, Iowa, and Jean Robinson of Glendale.

Glendale Cat Show

The Silver Specialty cat show held under the auspices of the Glendale Cat club is in progress today at 142 North Brand boulevard.

There are 45 cats entered, 25 of which belong to local people. The judges were beginning to mark up the good points of the feline beauties just as The News went to press, while their owners stood by with bated breath and beating hearts, each anxiously hopeful for his own darling to win a prize.

Eastern Star Meet.

A large attendance was present last night at the regular meeting of Glen Eyrre Chapter, O. E. S. Six new members were initiated into the order, one of the initiates being Mrs. James Wyvell, wife of the Worthy Patron, and is a recent bride. The secretary's report showed that there are now more than two hundred members. Following the regular order of business, the Worthy Matron, Sallie Campbell Braden, on behalf of the members of Glen Eyrre presented Mrs. Wyvell with a beautiful Pyrex baking dish with silver stand. The members then adjourned to the banquet room where coffee and cake were served.

NEW TURN IN WHISKY RING INVESTIGATION

(Special Service to Glendale Evening News)
LOS ANGELES, Nov. 27.—Federal investigation of the whisky ring conspiracy here took a new turn today when government officials announced that they are now inquiring into the alleged payment of sums of money totaling thousands of dollars in "hush money" by prominent men who previously purchased illicit liquor. Many of those who illegally purchased booze, it is charged, later were forced to buy the silence of members of the bootlegging clique who sold them the liquor. Demands for money, it is said, were accompanied by threats to turn over their names to federal officers. Fear that they would be summoned before the federal grand jury and possibly indicted is declared to have driven a number of prominent men to pay blackmail money demanded.

BOMB EXPLOSION CAUSES \$50,000 DAMAGE

(Special Service to Glendale Evening News)
CORK, Ireland, Nov. 27.—A number of bomb explosions occurred today in the principal streets here. Immediately afterward several large shops burst into flames. The damage is estimated at \$50,000.

GLENDALE LOSES

LOCAL FOOTBALL SQUAD DROPS
GAME TO POMONA AND IS
OUT OF TITLE GO

Aspirations of the Glendale high school football team for the 1920 southern California championship were knocked out by the Pomona high school squad in the elimination contest held in Pomona on yesterday. The score was 21 to 0.

Although defeated, Glendale's squad made an excellent showing and the punting of Chandler, the tall fullback of the local pigskin artists, was easily the feature of the game.

Pomona ripped Glendale's line for gains and, too, put over several long forward passes. Pomona also slipped over a few trick plays.

Since Glendale has won the title in the Central league and has been defeated but once this season, its defeat by Pomona is somewhat softened.

Here is the way the two teams lined up for the slaughter:

Pomona	Glendale
Blatz	R. E. L.
Neibel	R. T. L.
Philips	R. C. Dennison (C.)
Tuttle	G. L.
McCrosen	A. G. R.
Baynham	L. T. R.
Saltonstall	L. E. R.
Wright	Q. Q.
Keiser	R. H. L.
Stone	L. H. R.
	F. Chandler

Referee, Badenoch; umpire, Schott; head linesman, Wilson.

Score by quarters:

Pomona	14	7	0	—21
Glendale	0	0	0	—0

Touchdowns—Pomona, Hunter, 2; Saltonstall. Goals from touchdowns, Pomona, Hunter, 3.

Lusby's Dinner Party

In spite of the fact that Mary was commended in the scripture story as having chosen the better part, we confess we've always had a sneaking sympathy for Martha, who was "busy about many things" in preparation for the entertainment of her distinguished guest.

And so has every proper hostess after her been "busy about many things;" things irksome and tiresome and some of them disagreeable (such as washing the dishes, for instance). Imbued, then, with this sympathy for the hostess who prepares the feast, and desiring earnestly to do honor to whom honor is due, The Evening News strikes its breast and cries contritely, "Mea culpa, mea culpa, mea maxima culpa," for having inadvertently "balled up" the Thanksgiving festivities of Mr. and Mrs. C. D. Lusby of 404 North Jackson street in its columns yesterday. True, 'twas all in the family, anyway, for the party was ascribed to Mrs. Lusby's brother and sister-in-law, but the Martha who was busy about many things in order that others might have a happy time should have the honor. And so we hasten to say:

Mr. and Mrs. C. D. Lusby of 404 North Jackson street were hosts at an elegantly appointed Thanksgiving dinner.

Turkey was the piece de resistance and all the other good things that go to make up a Thanksgiving dinner were there in abundance. A large basket of fruit decorated the center of the table, where places were marked for Mr. and Mrs. E. U. Emery, Mrs. Mabel Meibergen, Misses Juanita, Josephine and Olive Bell Emery, Margaret Lusby, Messrs. Gilbert Emery, Harold Latter of Oakland, and the host and hostess.

Motoring was an after dinner pastime, and music and games whiled away the evening hours.

MUSIC SECTION

OF TUESDAY AFTERNOON CLUB
HOLDS PROFITABLE SESSION.
BY MISS EVA DANIELS

The sections of the Tuesday Afternoon club stand out with a dignity which is distinct, and guests who attend remark in delighted astonishment at the talent shown by members. That this is especially true of the Music section was again evidenced by the program sponsored by Mrs. L. N. Hagood at her home on North Orange street Friday afternoon when the regular meeting of the Music section was enjoyed by fifty members and guests. A program of modern music was arranged, those taking part being members of the section.

Mrs. Charles Pendleton played splendidly two piano selections: Prelude, Rachmaninoff and "Dance of the Amorphous," Chaminade.

The story of the opera l'Oracolo with Scotti as the lead was entertainingly read by Mrs. Alma Gibbs. It was written in 1905 by Frank Leoni. Mrs. Arthur Dibbern gave Liszt's "Love Song" on the piano most delightfully.

Mrs. Frank Arnold with her rare voice charmed the audience with two of Spencer's selections, "Come, Will You Come to Me," and "Thou Art So Like a Flower." Little Betty Hagood, aged six, a member in embryo, won those present by her rendition on the piano of Gaynor's "Peasant Dance."

Mrs. Della Johnson played splendidly on the piano "In the Light of the Moon," De Bussey. Mrs. Charles Marlenee told incidents in the life of Leo Ornstein, the renowned musician, and said he was noted for his sincerity.

Mrs. Mattison B. Jones, vice president of the State Federation of Music clubs, gave several interesting facts of musical history well worth learning, and Mrs. Charles A. Parker also spoke on modern music.

The business meeting which was presided over by its curator, Mrs. Charles Marlenee, was given entirely to matters pertaining to the Tuesday Afternoon club bazaar, which will be held Friday, December 3 in Masonic Temple and will open at 10:30 a. m.

The Music and Shakespeare sections will have charge of the fancy work booth, which will be built upon the stage of Masonic Temple, and promises to be a "thing of beauty."

A string quartet will be one of its many features. Mrs. Marlenee asked that all donations of members and friends be sent to the home of Mrs. A. H. Montgomery, 415 South Central avenue, by Thursday morning, and also invited the people of Glendale most cordially to attend the bazaar.

The hostess, Mrs. L. N. Hagood, assisted by Mrs. George Roach and Mrs. R. Angelica, served delicious refreshments. Fifty members and guests were present and an enjoyable afternoon was spent.

Family Party

Mr. and Mrs. Mattison B. Jones were among the Glendale people who observed Thanksgiving as a family festival.

Their dinner guests were Mrs. Jones' mother, Mrs. Annie Smith, and her aunt, Mrs. R. M. Jackson, of Los Angeles.

The party of relatives, eighteen in number, who were entertained at tea in the Jones home, included Mr. and Mrs. W. E. Evans and family, Mr. and Mrs. F. W. Pigg and family, Mr. and Mrs. Tom Furst, Mr. and Mrs. L. A. Phillips and family of Los Angeles, and the Jones family.

PERSONALS

F. E. Blodgett of 125 West Los
Feliz road spent Thanksgiving with
his wife and relatives at Long
Beach.

Mrs. Val Taylor of 434 West Wil-
son avenue is convalescing after a
very serious operation. She is do-
ing nicely.

Mrs. Fay Lapham of Kansas City,
Missouri, is visiting her son, A. H.
Lapham of 415 West Broadway.
She will remain for over the holi-
days.

Mr. and Mrs. John Hyde Braly of
505 North Brand boulevard were the
dinner guests of Dr. Herman Janns,
of Los Angeles, Thanksgiving day.

Mr. and Mrs. Warren Roberts of
539 East Elk avenue will be the
guests of Mr. and Mrs. H. H. Martin
of Los Angeles at a dinner and thea-
ter party this evening.

Mrs. Peter L. Ferry of 614 East
Acacia street is very busy this week
entertaining her daughter, Mary
Alice, who is home from Ramona
Convent for the Thanksgiving holi-
days.

Mrs. Barnett of 643 North Jack-
son street is moving to Hollywood.
Miss Elizabeth Allen of the City
Hall force, and party, motored to
Prepice Canyon Thursday. They
returned with a quantity of the most
beautiful holly.

Dr. and Mrs. C. Stuart Steelman
of 116 East Elk avenue entertained
at a dinner party at La Ramada, fol-
lowed by a theatre party at the Or-
pheum Thanksgiving Day. The
guests were Mrs. Carson and Thos.
Llewellyn of Los Angeles.

Caswell's White Star market,
which is now located in the Basket
Grocery, will move about December
first to its new location just across
the street at 111 East Broadway.
Another shop will be installed im-
mediately in the Basket Grocery.

Mr. and Mrs. James Current, who
have just returned from their hon-
eymoon in Colorado, and Mrs. Cur-
rent's parents, Mr. and Mrs. Ned
Porter of Riverside, were the guests
of Mr. and Mrs. Colson of 405 East
Harvard street, Thanksgiving Day.

W. A. Meredith of the Iowa taxi
service, with headquarters at 143 S.
Brand boulevard, is quite busy these
beautiful winter days taking out
sightseers and picnic parties. Tour-
ists and others appreciate the high
class of service which Mr. Meredith
renders.

Judge and Mrs. H. M. Miller and
son Ray and James L. Rae of 202
East Elk avenue were the guests of
Judge Miller's sister, Mrs. John
Stenler of Los Angeles, for Thank-
sgiving dinner. In the afternoon an
automobile trip to Owensmouth was
enjoyed.

Mr. and Mrs. R. B. Hammond of
508 North Isabel street had as their
guests on Thanksgiving day Mr. and
Mrs. W. S. Hammond and son Earl.
Mr. and Mrs. Ray Hammill and lit-
tle daughter Helen, from near Idaho
Falls, and Mrs. Frank Ray, of Med-
ford, Oregon. Carnations and
chrysanthemums were used as decora-
tions. After dinner the guests
were taken for a drive in and around
Glendale. The eastern visitors were
very much impressed with the beau-
ties of Glendale.

MISS PORTER WEDS

**CHURCH WEDDING OF GLEN-
DALE IN RIVERSIDE IS A
CHARMING EVENT**

Unusual charm was attached to
the wedding service read last Satur-
day afternoon in Riverside when
Miss Frances Porter and James H.
Current, both of Glendale, were united,
the ceremony being conducted by
Rev. George Laughton, pastor of the
First Congregational church of Riv-
erside. About forty persons, relatives
and intimate friends of the
couple, were present. Mr. and Mrs.
Porter have returned from their
honeymoon and are now at 505 East
Harvard.

The Porter home on Hidalgo
Place was attractive in graceful au-
tumn leaves and colorful zinnias, and
a basket of marigold stood in the
corners of the reception hall, and
marigolds decorated the den and liv-
ing room. The living room, where
the service was held, was charming-
ly decorated with a frieze of sprays
of autumn leaves, and marking the
corner where the marriage vows were
exchanged was a large basket of vivid
zinnias.

Just before the appointed time
Miss Ginevra Heiser played Schu-
bert's Serenade, merging into the
wedding march as the bridal party
entered.

Mrs. Clyde F. Rex acted as matron
of honor. She wore a reindeer du-
vety, and her flowers were Ophelia
roses arranged in a corsage.

The bride entered with her father.
Her suit was of blue French velour,
with blouse of soft grey georgette. A
close fitting hat of silver cloth com-
pleted her costume. She wore a cor-
sage of Cecil Brunner roses with
lilies of the valley.

Mr. Current was attended by Owen
Dair of Glendale, as best man.

Following the ceremony the
bride officiated at the time honored
custom of cutting her cake. Ice
cream and cake were served by Mrs.
E. Y. Porter, mother of the bride,
Mrs. Anna Current, mother of the
bride groom, assisted by Mrs. George
F. Colson, aunt of the bride, and
Misses Mildred and Sylvia Porter.

Mrs. Current is a popular member
of the younger set of Riverside, who
has made her home in Glendale for
the past two years. She attended the
Riverside school and graduated from
that high school with the class of
1918. Since her graduation she has
been associated with the E. A. Little
company's studio of Los Angeles.
She has made a study of art, and has
won recognition of her work.

Mr. Current has made his home in
Glendale for many years, attending
the schools of this city. He is con-
nected with the Glendale Construc-
tion company.

Out of town guests who were pre-
sent at the wedding included friends
and relatives from Los Angeles,
Whittier, Sawtelle and other south-
ern California points. Those from
Glendale were Mr. and Mrs. George
F. Casler, Mrs. Anna Current, Miss
Marjorie Current, Kenneth Current
and Miss Florence Krikske of Bur-
bank, Miss Pearl Dean, Mr. and Mrs.
Muier and daughter Millicent, Mr.
and Mrs. U. G. Boyd and son Harold
William, Owen Dair, Miss Mildred
Swenson.

BOYS' DAY

GLENDALERS WILL GET TO-
GETHER ON AFTERNOON

OF DEC. 8

Sunday, Dec. 8th, is "Boys' Day"
in California and is to be observed
in Glendale by a get-together of the
boys, on the afternoon of that day,
under the auspices of the Glendale
Y. M. C. A.

Mr. Kelley, secretary for Glendale
district, is hoping and expecting to
make this a day which will be re-
membered by our boys and which
will be of value to them in the build-
ing of character. He has arranged to
have Rev. R. P. Shuler—"Fight-
ing Bob"—address the boys in the
afternoon of that day—a week from
tomorrow. The gathering will be
at the First M. E. church at 3:30
p. m.

Mr. Shuler created a most favor-
able impression at the recent meet-
ing of the Federated Brotherhood
by his forcefulness and attitude
against insidious evils. He is just
the man who will appeal to boys of
the right type.

Mrs. Bessie Patch and son, A. L.
Patch, of 125 North Belmont street,
spent Thanksgiving day at Redondo
Beach with Mrs. Patch's daughter,
Mrs. C. W. Hartley, Mr. and Mrs.
Walter Hartley of Glendale, parents
of C. W. Hartley, were guests also.

Mr. and Mrs. R. W. Meeker of
1320 East Colorado street had as
their guests during the past week
Mr. and Mrs. J. O. Meeker of San
Rafael, and Mr. and Mrs. Cheney of
Coronado. Mr. Cheney is manager
of Coronado Tent City. Mrs. Meek-
er will return to San Diego with
them for a little visit.

Among the Glendale folks who at-
tended the K. C. dance given at Ho-
tel Maryland in Pasadena Thursday
evening, November 26th, were Mrs.
H. M. Doll, Mr. and Mrs. Frank
Clark, Mr. and Mrs. Lund, Misses
Susan Wendell, Helen Godar, Mar-
garet Finn, A. Flynn and C. Murphy,
Messrs. Milton Berry, J. Wentworth,
P. J. Clark, M. W. Doll, and Robert
Godar. A wonderful evening was
enjoyed by all.

INVESTMENT

Some people have the idea that
Life Insurance is all right as pro-
tection, but is no investment.
Edw. B. Sweazy, now Vice Presi-
dent of the First National Bank of
New York City, recently said to an
insurance friend, "I have been
thinking seriously of late about
my past life and my affairs. I
have carefully gone over my pa-
pers, and as I am in the invest-
ment security business I am forced
to be a banker, but I find that the
Life Insurance you have sold me
has been as good an INVEST-
MENT as any I have made ANY-
WHERE."

After all is said, many business
men find the same to be true. The
combination of safety, protection
and saving is unequalled.

W. B. KIRK

Provident Insurance

Aetna-Auto Plan

protects the motorist
against financial loss—

1. If his car injures or kills
anyone.
2. If his car destroys or dam-
ages another's property.
3. If his car is destroyed or
damaged by collision.
4. If his car is destroyed or
damaged by fire.
5. If his car is stolen or dam-
aged by thieves.

Aetna-Auto Combination
Insurance will enable you
to drive your car with the
assurance that you are com-
pletely protected against
every insurable motoring
risk.

FOR IMPROVEMENT

(Continued from Page 1)

fare to Glendale. He was more than
willing as a property owner on the
boulevard, to pay his share of the
expenses, providing the work was
not unnecessarily done at a time
when the cost would be excessive.
He said that if the city wanted the
work done now it should be willing
as a whole to assume a portion of
the burden.

Messrs. Lane, Booth and Daven-
port also discussed the matter, and
they were all heartily in favor of
the improvement providing that the
work was postponed until a time
when it would not entail too great a
burden upon the property owners
along the thoroughfare.

Chairman Jones satisfied all pre-
sent on this score when he explained
that past experiences along these
lines convinced him that a year and
perhaps more would be consumed in
completing the preliminaries in this
movement for a more beautiful bou-
levard.

The fear that hasty action might
be taken was thus dissipated and
there was a unanimous vote in favor
of the appointment of a committee

Unique Celebration

Mr. and Mrs. H. W. Reynolds and
party celebrated Thanksgiving by
going to Eagle Rock Park, where a
picnic dinner was enjoyed. This
was a very unique way of observing
this holiday for many of the guests,
who were new comers to California
from eastern states. Those present
were Charles Witham and family of
San Dimas, Charles Lakey and fam-
ily of Fort Collins, Colorado, Nor-
man Faulkner and family of Love-
land, Colorado, J. F. Reynolds, of
Sherman, Pennsylvania, and D. F.
Reynolds of Binghamton, New York;
John Guest, Roy Kitch, and Mrs.
Catherine Collins of New York City;
Wm. Whitley of Bakersfield, Mr.
and Mrs. Myron Lowe, Mrs. Julia
Beers, W. H. Reynolds and family,
Alva Faulkner and family, and E.
D. Reynolds and family of Glendale.
There were thirty-six in all.

The J. F. Reynolds and D. F. Rey-
nolds families recently arrived in
Glendale from the east by automo-
bile, having made the trip from New
York in twenty-six days. They ex-
pect to locate here permanently.

of seven to confer with the Pacific
Electric officials and report back to
the Brand Boulevard Improvement
association, which was the name se-
lected for a permanent organization.
On motion Attorney Jones was nam-
ed chairman of the committee and
as chairman of the meeting he was
authorized to name the other mem-
bers and fix a date for the next
meeting of the new association. He
will make the committee appoint-
ments in a day or two.

The membership of the associa-
tion is not to be confined by any
means, to owners of property on
Brand boulevard; every tax-payer in
Glendale is urged to join. It is nec-
essary to present a solid front to the
railroad company and, besides, ev-
ery tax-payer in Glendale is vitally
interested in the improvement of
this beautiful boulevard.

Fifty thousand population for
Glendale in 1930 was the prediction
of Chairman Jones in his closing re-
marks, and in the estimation of
those present this was a conserva-
tive estimate of the city's size a de-
cade hence.

An old tire valve with inside taken
out may be attached to a compressed
air line, and will be found very use-
ful in blowing water out of the igal-
tation apparatus, and the like, after
the car has been washed.

A LITTLE STORY OF LAUNDRY SERVICE

First—Our driver calls for your bundle which you have pre-
viously wrapped and marked.

Second—When your bundle comes into the laundry, we sort
your clothes, separating the lincens, woollens and silks, the
colored clothes from the white, and segregating those
that have stains or need some special attention. Then
we thoroughly cleanse everything in fluffy, soft suds and
dry them where the air has free access and circulation.

Third—Everything is returned to you sweet and clean and on
time.

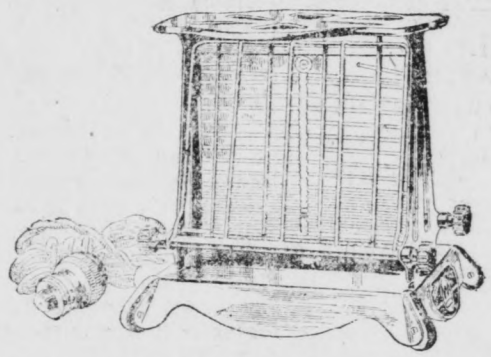

Fourth—You have gained a luxurious sense of relief from the
multiple worries of washday at less expense than it costs
you to do the laundry work at home.

Phone for one of our wagons to call.

C. E. CONVENTION

(Continued from Page 1)
has an excellent chance of being chosen. We are appearing before you tonight for the purpose of securing your moral support to the plan to bring the convention to Glendale. We ask no financial assistance. We do ask, however, that a formal invitation to the convention be extended by the trustees.

Rev. Edmonds also spoke, pointing out the value of securing the big gathering for this city and urged that favorable action be taken. Mr. Stoler also supported the petition.

The trustees at once recognized the benefits to be derived from having the convention here and, on motion of Trustee Stephenson, it was ordered that a formal invitation be prepared and handed to the committee to be presented at the meeting to be held in Los Angeles at which the convention city is to be selected.

Whole State Represented
"Delegates from various sections of the state will be in attendance at the convention," said Mr. Newton, in discussing the subject with a reporter for The News. "More than 3,000 delegates will be in attendance—probably 3,500. And of this number, nearly 1,000 will come from the northern part of the state. We are asking no financial aid in seeking to bring this great gathering to Glendale. All we ask is the moral support of the city officials and the citizens generally."

"Naturally, if Glendale secures the convention, it means the bringing to this city of men and women prominent in moral work. Also, it means that Glendale—already receiving great publicity because of its rapid growth—will receive further advertising, such as always comes to a city where a large convention is held."

"Of course, the question arises: How can Glendale care for so many visitors? That is answered by saying we expect to care for a number of the visitors here, in Pasadena and, perhaps, in Los Angeles. We feel certain that the delegates can be properly cared for. The main thing is to secure the convention for Glendale."

Members of the committee stated that a meeting of the Los Angeles county organization of the Christian Endeavor will be held in Los Angeles within a day or so and that the claims of Glendale as host will be considered. The local committee will go to the meeting well provided with facts and figures to show why Glendale should be chosen and, according to expressions of the organization's leaders in the south, there is every reason to believe that this city has an excellent chance of being chosen as the meeting place for the state gathering next June.

MAY PUT PIPE BACK OF CURB

GLENDALE AVENUE WATER MAINS TO BE LAID IN PARKING, PLAN OF TRUSTEES

Tentative plans for a steel pipe line on Glendale Ave. and Verdugo road, from Doran street to the reservoir site, were presented by H. B. Lynch, consulting engineer in the water bond issue project, at the meeting of the city trustees last night. Alterations in the plans were ordered by the trustees and further consideration will be given the matter at the next meeting.

The plans as presented last night called for a thirty-inch steel pipe at a total cost of about \$50,000. Engineer Lynch pointed out that the city could be saved some money by specifying a different thickness of pipe and, too, more money could be saved by laying the pipe in the parking instead of the street. He estimated the placing of the pipe in the parking instead of the street would save about \$2,000, if not more.

"By all means install the pipe in the parking," urged Trustee Stephens. "The street has a good pavement now and I, for one, would hate to see it disturbed. I can see no reason why the young trees now in the parking could not be removed and, after the pipe line is installed, replaced with others. Certainly we would save money by this method."

Consulting Engineer Lynch was instructed to change the plans to conform with this suggestion of the board and they will then be examined at the next meeting. It is probable that the altered plans will be approved for, at the meeting last night, the trustees seemed to be unanimous in having the pipe line placed in the parking instead of the street, the desire to reduce the expense and to save the pavement from being disturbed causing the board to unite in proposing to lay the main back of the curb.

Plans for a 500,000 gallon reservoir, a unit in the huge reservoir that eventually will have to be constructed in the city water system, at Grand View avenue, were submitted by Consulting Engineer Lynch. The plans called for an expenditure of about \$9,000.

"Here are the plans," said Engineer Lynch, "but I desire to say to the board that, frankly, I am disappointed in the cost estimate. It is too much for a reservoir that, in brief, would be but a temporary structure. It was our idea to construct a reservoir that would, in time, be a part of the great reser-

TO THE THEATREGOERS OF THE CITY OF GLENDALE:

Today I make one of the most interesting announcements I have ever made in my career as a theatrical manager.

I believe the information contained in the following statement will be read with intense interest by all who value the best and most artistic in the world of amusement.

I have always faithfully endeavored to bring to my patrons the biggest and best theatrical attractions of all times, for I know that only the biggest and best appeal.

Now I am happy and proud to announce that I have contracted with F. Ray Comstock and Morris Gest, producers of the world-famous "Chu Chin Chow," whereby that brilliant and gorgeous spectacle of ancient Bagdad, the world's most beautiful production, will appear at Mason Opera House, Los Angeles, week commencing Monday, Dec. 13th, at 8 p. m.

"Chu Chin Chow" is a gigantic and gorgeous musical extravaganza, in 14 scenes, with 18 musical numbers, produced on a scale of colossal grandeur, employing the services of 300 people. It was originally presented in London at His Majesty's Theatre, nearly four years ago, by Oscar Asche, in association with the late Sir Herbert Tree, and is still playing there to capacity.

The American production of "Chu Chin Chow" was made by Messrs. Comstock and Gest, after the payment of the biggest royalty ever known in the theatrical world, in New York more than two years ago, the scenery and costumes being imported from England and being exact duplicates of the originals.

"Chu Chin Chow" ran one entire season in New York at the Century Theatre, and then played an entire season in Boston, Philadelphia, Chicago and several other big cities.

This great production, once more presented in New York at the Century Theatre in August for a return engagement, and now embellished with many additional scenes and new costumes, comes here direct from its second engagement on Broadway.

Owing to intense interest in the engagement, MAIL ORDERS for this important theatrical event will now be received. Send remittance with self-addressed, stamped envelope for return of tickets, and, as there will unquestionably be an avalanche of mail orders, please name choice of two performances to insure getting seats.

Prices—Nights, \$4, \$3.50, \$3, \$2.50, \$1.50 and \$1.

Wednesday and Saturday Matinees, \$3, \$2.50, \$2 and \$1.

I believe the engagement of "Chu Chin Chow" will be the most notable event ever known at my theatre.

POSITIVELY LAST
PLAY DATE
IN CALIFORNIA
W. T. WYATT,
MGR. MASON OPERA HOUSE,
LOS ANGELES

to follow. We made the estimate on one of 500,000 gallons capacity and found that it would cost about \$9,000. I do not recommend its construction at that figure."

Discussion resulted and, finally, it was decided to have plans drawn for a smaller reservoir and submitted for consideration, together with an estimate of the probable cost.

During the discussion it was pointed out that the proposed reservoir would, in a measure, be but a temporary structure and in service only while steps are being taken to secure a master reservoir. It was stated that the temporary reservoir would be in service only five years—perhaps less—and then it would become but a unit in the proposed larger system.

As a result of this, Engineer Lynch and the trustees agreed that a reservoir smaller in size than one of 500,000 gallons would probably answer the purpose and considerable money saved in its construction. So new plans will be drawn and estimate of cost made and considered at a future meeting.

Announcing the **LIBERTY SIX**

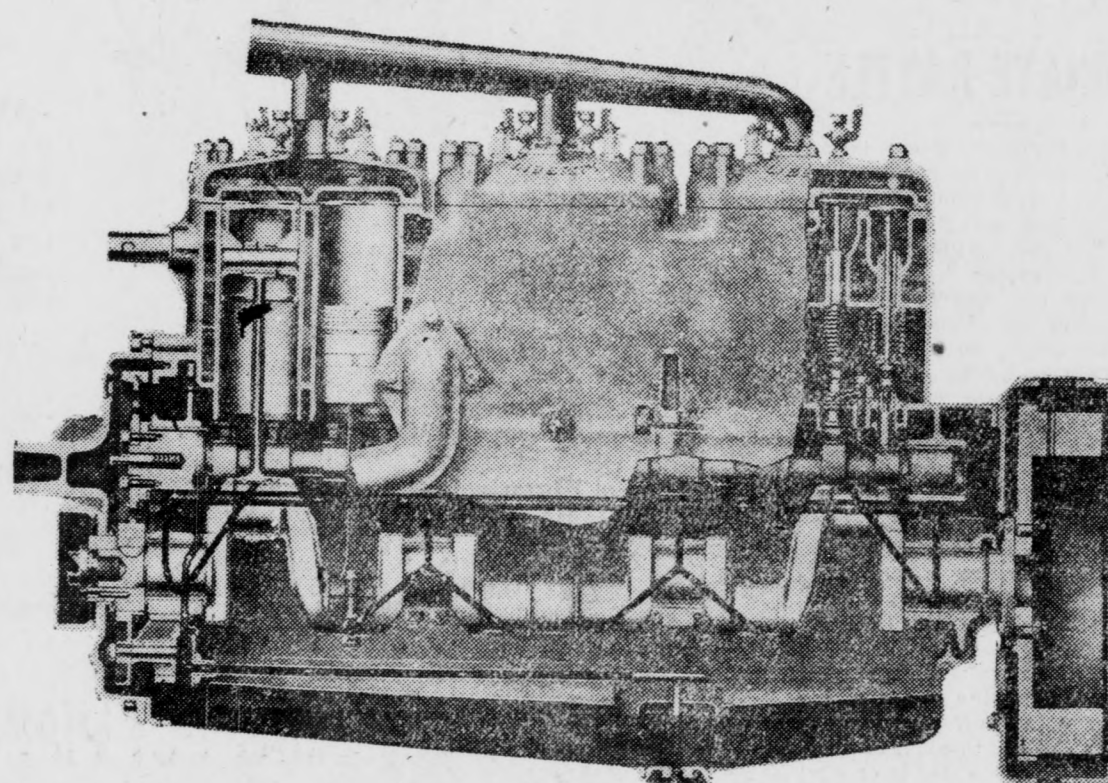

Why We Champion the Liberty Six

AFTER a thorough canvass of the entire Light Six field we have selected this car as the most worthy of representation in this territory.

We say "most worthy" because the Liberty-Six Motor, designed and constructed by nationally known Liberty engineers, is capable of giving the greatest amount of real service to its owners.

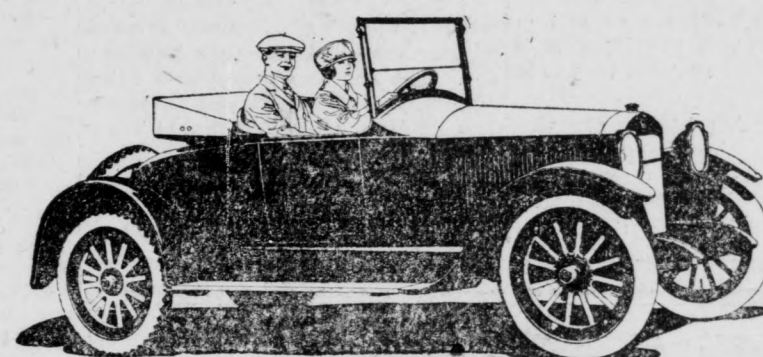

Because of the distinct difference in the way the Liberty rides and drives, a difference so marked as to cause frequent comment, and because we know the Liberty organization to be all that can be desired in strength and ability to produce a worthy automobile.

Liberty Six Motor

Six cylinder motor, unit power plant
Bore 3 1-8x5 in. stroke
53 horsepower at 2300 R. P. M.
4 bearing crankshaft and camshaft
Forced lubrication system
Thermo syphon cooling system
2 unit starting and lighting system
3 detachable cylinder heads
Water capacity, 7 gallons
Vacuum feed gasoline system
Four blade ball bearing fan

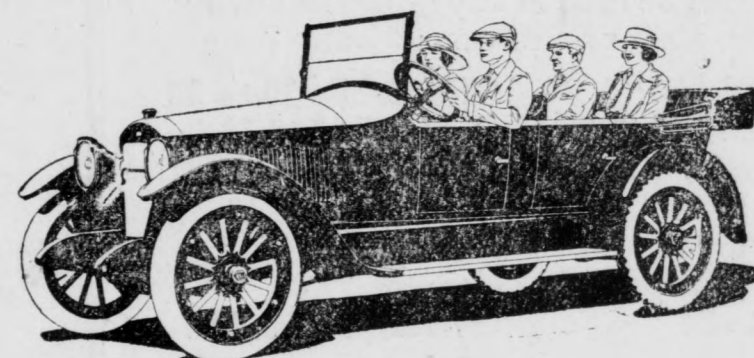

Every unit in the Liberty Chassis is both standard and oversize for the weight of the car. We have a car ready for your inspection.

A CONVENIENCE FOR AUTOISTS

MANY THINGS DONE UNDER ONE
ROOF; KEPT OPEN TILL
MIDNIGHT

The new automobile service station and second-hand mart at 246 South Brand Boulevard are doing a splendid business and Messrs. Kingsley, Johnson, Tyler and McGrath are well pleased with the move they made when they located in these commodious quarters, which are so centrally situated. Under the one roof it is possible to have done body and fender work, engine and general work, radiator repairing, acetylene welding, auto tops repaired or entirely replaced; or, if you want to, you can buy a used car or sell or trade your old one, providing it is in the proper shape or can be put in good shape.

Mr. Kingsley has become the representative for the Warner-Stuart products, which include speedometers—the best that are made. He is also handling the Cole visible gas

gauge, which is a new contrivance of great value to the autoist. By simply casting a glance at the instrument on the dashboard you can tell what quantity of gasoline remains in the tank.

By the way, it should not be forgotten that 246 South Brand Boulevard is open every night in the week until 12 o'clock. This gives you a chance to have your car fixed up after working hours and get it early the next morning.

HIS TOP SMASHED

A. B. Lawrence of the local Overland-Wylie agency had his car parked Thursday at the Beverly Hills speedway near the scene of the fatal accident a section of the high fence was knocked over and completely wrecked the top of his motor car and slightly damaged the rear left fender. The car was pretty well filled with pieces of boards and splinters. The damage, which amounted probably to \$100, was covered by insurance.

Advertise in The Evening News.

CAR HALTED IN ONE FOOT SPACE

AND IS SPEEDING AT THAT;
ESSEX IS MADE TO DO WHAT
WAS SAID IMPOSSIBLE

It is generally conceded that motion pictures require more daring and have more excitement than the legitimate stage, but one actor and actress playing recently in "John Ferguson" had a thrill the public did not even suspect.

It was necessary during the course of the play for Fred S. Cummings to enter the scene in a "Frenchy" car driving about 20 feet to a window where he took on a passenger—then to dash off the stage. After leaving the window he had about three feet before the car would be out of sight and after that he had about one foot in which to stop before hitting a brick wall.

"The speed with which we left the stage almost frightened my passenger to death for the first time or two," said Mr. Cummings, "but I drove an Essex roadster—which represented the 'Frenchy' car, and the car's superior braking system, which enabled me to stop in that one foot leeway every time, soon gave her full confidence in the performance."

"The words of the speaker conveyed his opinion of the Essex roadster he drove," commented Mr. Chambers, of Chambers & Felts, local Essex dealers, "but his approval was shown more definitely last week by purchasing one of our new type Essex Chevrolets."

ELIMINATE RATTLE

The more expensive a car is the longer you expect it to run without rattles. Yet it is possible with even the lowest-priced cars to keep the rattles out if you will but catch them as they appear. They will come one by one and if they are caught in the same manner they will not be nearly so hard to remove as they would be if they are allowed to accumulate in a troublesome chorus before they are stopped.

"A rattle found is a rattle half cured," says A. L. Loomis in MoTolt, where information is given that will enable the car owner to discover the various rattles and squeaks that a car is subject to and how to stop them when found, as for example:

"Rattles in the brake linkage and other parts under the car can be found by shutting off the engine and allowing the car to coast in neutral gear. If someone stands or sits on the running board while the driver does this, many sounds that have been difficult of location will be readily found. These link rods are a typical example of noise that will often defy the efforts of the driver to find, while another person sitting on the running board or outside the car will have little or no difficulty."

WARNER-STEWART

E. W. Kingsley, 246 South Brand boulevard, is now handling all the Warner-Stewart products—anything and everything manufactured by this firm.

He is also agent for the San Fernando valley for the Cole dash gas gauge, a recent invention with which many of the leading makes of cars are being equipped. They are certainly convenient, as they keep the driver constantly informed as to how much gasoline is in the tank.

Mr. Kingsley can supply any of the parts alluded to here or do any repairing or make any adjustments along these lines.

Another valuable adjunct to the automobile which Mr. Kingsley handles now is the Cole Reite, which spots a sharp light wherever you want it to.

Without Battery

It is possible under certain conditions to keep a car that uses a battery ignition running without the use of the battery. This is when the battery system employs a generator to feed a load after a certain engine speed has been reached, while the battery is called upon for speeds of less than 15 miles or so. If the battery is out of commission it is impossible to get the car started in the ordinary way, but if the vehicle is towed or otherwise gotten into motion it can be kept going. Obviously the starter is out of commission and the speed of the car must be kept pretty well up, but in emergencies this dodge is worth remembering.

Painting the tires with a coating of liquid rubber to which whitening has been added not only gives the shoes an attractive appearance, but it also helps to preserve them. For the benefit of the motorist who likes to do his own tinkering in so far as possible, it might be added that a satisfactory compound for coating both the inside and the outside of the shoes can be made by stirring five pounds of whitening into a quart of gasoline, and after a thorough mixing has been effected, adding a quart of rubber cement.

Automobile factories in Great Britain are building a poor man's motor to sell for \$350. The car is two-seated, will make probably 45 miles an hour, and climb any hill.

Owner Tests Prove Essex Reliability

Hundreds of Essex owners engaged in the "Essex Week" series of tests in all parts of the country—the most dramatic ever made to prove motor efficiency.

They covered every phase of car performance, breaking records for speed, hill-climbing and non-stop motor runs in every part of the United States.

Some of these owner driven cars already had from 20,000 to 35,000 miles of service to their credit.

Many were on tires that had travelled from 15,000 to 23,000 miles. Women owners piloted some of the record breaking events.

And these are the cars that set new world marks, as well as hundreds of local records. They were no hand-picked, specially tuned motor cars. They represent the ability of any and every Essex. They bespeak similar qualities of reliability and performance superiority for 50,000 Essex cars as their owners know them.

A Few Essex Owner Records

Boston, Mass.—Four round trips to Ft. Kent, Canadian Border, 4052 miles in one week.

Toledo, O.—3,722 miles, 168 hours non-stop motor, attaining 68 miles per hour at finish.

Dallas, Tex.—Essex, previous service 12,000 miles, set world's dirt track mark of 1261 miles in 24 hours, averaging 52½ m. p. h.

Wisconsin—Essex, previous service 38,000 miles, goes 90 miles over dirt roads in heavy rain, 2 hrs., 4 min.

Columbus, O.—Essex, previous service 16,000 miles, goes to Washington, D. C., 403 miles in 11 hrs., 40 min.; beating crack Penn. R. R. train by 3 hrs., 54 min.

HAS SECURED THE LIBERTY AGENCY

B. G. SUTHERLAND HAS THE
BEAUTIFUL MACHINE WITH
THE FAMOUS MOTOR

B. G. Sutherland, 230 North Brand boulevard, the well-known Gardner representative, has secured the agency for the San Fernando valley of the famous Liberty motor car.

The machine is manufactured by the designers and owners of the Liberty motors which we have all heard so much about in connection with aeroplanes. This is a strong company and turns out an elegant and serviceable car.

The difference of the Liberty's riding and driving is not to be wondered at when one learns the steadfast quality of the car, which becomes more and more apparent as the miles roll up.

To this unmistakable worth, and also to the high order of designing displayed even in the very minor details, may be attributed qualities so divergent as the unusual comfort which the Liberty affords, and the uniform reasonableness in the cost of its operation and upkeep. The car is one of moderate weight in proportion to its size, amply powered, with a responsiveness and flexibility that are remarkable.

It is replete with features that have literally commanded the enthusiasm of Liberty owners. The upholstery is of genuine leather in the French pleated type, fitted over unexcelled special cushion springs. Plainly-marked side curtains are carried in a very accessible compartment back of the front seat. The steering wheel is of black walnut, properly corrugated around the inner surface. There are special top holders, horsehair carpets in each compartment, a rear curtain light of beveled plate glass set in a heavily nickel-plated rim, and an equipment that is considered exceptionally complete.

If there is a lack of compression and on examination the valve heads seem clean and perfect, give the valve stems a careful looking over to see if they have not become warped by the intense heat of that part of the engine.

American-made motor vehicles are now exported to more than 90 countries of the world.

NEW DRY BATTERY

A new battery which is provided with a semi-solid electrolyte instead of the conventional sulphuric liquid is claimed to be a distinct advance in battery construction. The electrolyte is a salt-like substance which, it is said, is impervious to extremes of heat and cold, and which acts as a protective of current gathering coat for the plates. The plates themselves are of special construction, individually soldered into the strap, and the separators are particularly designed for efficiency in preventing short-circuiting and bucking. The battery is said to be of unusually long life, being easily charged and requiring a minimum of attention.

HIGHWAY SIGNS UP

Tourists along the Lincoln highway will stand small chance of straying off the beaten road from now on. Permanent signs are being put up all along the highway. The marking crew, which started at the eastern end of the highway several months ago, is now at South Bend, Ind., and is progressing rapidly westward.

Good for Shape It's In

For Sale—one Ford car, with a piston ring. Two rear wheels and one front spring.

Has no fenders, seat or top. Hard to start, and hard to stop.

Carburetor busted half-way through. Engine missing, hits on two. Has shock absorbers, and everything.

Three years old, four this spring.

Radiator busted, sure does leak; Differential dry, you can hear it squeak.

Ten spokes missing, front all bent. Tire blown out; ain't worth a cent. Got lots of speed, will run like the deuce.

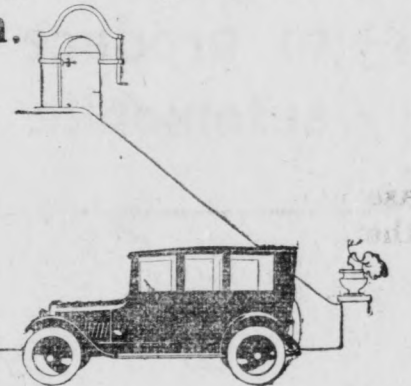

Burns either gas or tobacco juice; Tires all off, been run on the rim; A darn good Ford for the shape it's in.

—From "Live Wire." We must have our jokes about the Ford, but just the same we all take our hats off to it.

Europeans claim that in America "the incentive behind the sales of 89 per cent of the automobiles is woman."

Houses advertised for sale in England are often seized by ex-service men, who install their families therein and offer to pay rent.

THE roomy and well-equipped body of the Oakland Sensible Six Sedan rides on a frame of tough steel six and one-half inches deep. Similar solidity extends throughout the entire car. It has the power and strength for every driving condition. Inspect it, now, at our salesroom.

Some motorists appear to have the mistaken notion that it is harmful to the engine to use the compression as a brake in going down steep hills. Shut off the engine and leave the gears in mesh, so that the wheels drive the engine against the compression in the cylinders. Be sure that the throttle is closed. This will help save the service and emergency brakes from excessive wear. If greater braking power than that afforded by the high speed position of the gears is needed, shift into second or low, the braking effect being increased as you step down.

When a man falls out of the lap of luxury he usually receives a bump that converts him into a grouch.

SUTHERLAND'S PHILOSOPHY

THE GARDNER DISTRIBUTOR IS
PRACTICAL IN HIS HELP.
FUL REMARKS

Common sense, the custom of centuries, and natural law have demanded that each normal day of twenty-four hours be divided into two major periods. Nature, through her demand for eight hours of recuperative sleep, two hours and a half for eating and an hour and a half for toilet, bath and other personal necessities, has assumed a permanent mortgage on at least one-half of our time, says B. G. Sutherland, local Gardner distributor.

"We can, therefore, claim rightful ownership to no more than twelve hours of each full day, and the proper division of this allotted time gives us only eight hours for work and four hours for recreation.

"These are the twelve hours upon which the progress of the world depends. Rightly managed, rightly conserved, properly spent, these are the twelve hours that build the skyscrapers, that create the good roads, that develop great inventions. These are the twelve hours in which we make our personal fortunes, the twelve hours into which we must cram those activities that mean our personal advancement.

"The most reckless spendthrift in the world is he who squanders time.

"Universally, it is conceded that the automobile allows us to more largely control the investment of our time through making us independent of the delays and irregularities of less efficient transportation.

"Out of these hours so much time is consumed in getting about from place to place that the personal comforts and convenience of travel deserve fully as much consideration as the method of traveling.

"Those men who count time seriously and ever attempt to conserve it and invest it wisely have conclusively satisfied themselves that cars like the Gardner not only effect an economy of time while providing a most dependable means of transportation, but also give a much desired ever-readiness, cleanliness, security, protection of person, comfort of mind and state of well-being that are not to be obtained in every car.

"This perfected type of motor car guarantees to give you a much higher return on the time you invest in travel because it is without doubt the most efficient and economical means of personal transportation. It's the Gardner that allows you to more fully enjoy the hours you spend in going from farm to city, home to store, office to factory and back again. It's a true economy to ride in comfort—a serious waste not to. If a Gardner costs you more than a cheap car, you get the difference back, with large dividends added, because your ability to accomplish is increased by a substantial percentage."

GARAGE BUILDING IS AN INVESTMENT

AS IS HOME-BUILDING; METHODS OF PROPER GARAGE CONSTRUCTION TOLD

"At the present time many people are building houses and are, of course, planning accommodations for their automobile. A few words of advice may save them many dollars and disappointments later on," says F. S. Hill, of the USL battery and service station, 121-3 South Brand boulevard.

"The average man, whether he be a car owner or not, should keep firmly in mind the fact that the garage is essentially an investment and not merely a shelter for his car. If by any chance he disposes of his house, it is a good gamble that the man who purchases it will have a machine and a good looking garage will help materially in deciding the purchase for him.

"In building a garage, one should make up his mind to plan for spare room. This will cost a little more in the first place, but it will pay for itself many times over as the years go on. There should be space enough to allow for a work bench, a tire rack, gasoline and oil tanks, in addition to the car. In fact, the owner will do well to consider room for an extra car, possibly for a guest.

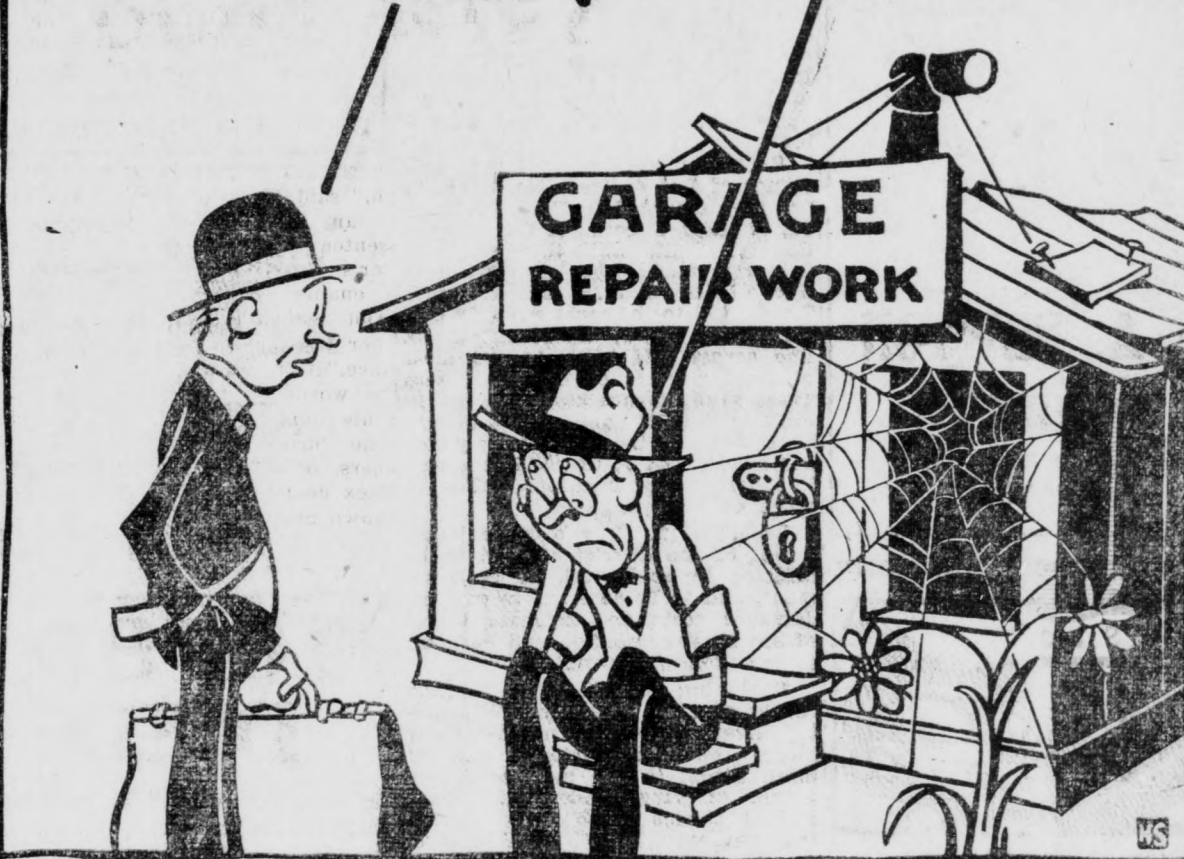

"Extra space in the garage will pay dividends, for the owner will find room in which to do odd jobs, which might otherwise have been taken to an outside repair man.

"If it is possible, provide for plenty of water and good drainage. Remember that washing may be of almost daily occurrence during the rainy season. Many garage owners prefer to have the water placed just outside the garage, believing this saves general untidiness inside the building. There is much to recommend this. On the other hand, if the floor is properly sloped and adequate drain provided for, there will not be a great deal of trouble with water in the garage.

"It is well to give careful thought to the drainage, which must be adequate to carry away all oil drippings. The floor of the garage should slope to the drain generally located in the center of the floor. Sometimes it is possible to connect

nope! country's full of Buicks

- no repair
business
'round here?

TANNER & HALL, Ltd.
237 S. Brand Blvd. Glendale 50

the garage drain with the trunk sewer, though this is not always allowed by the local regulations. On the other hand, what is known as a French drain, simply a barrel lined with rubber and sunk in the ground beneath a trap, will be found adequate for most garages.

"The next item for serious consideration is lighting. If there is any place where light is essential it is in a garage. An inexpensive, but satisfactory arrangement is a center drop light, with a double socket to accommodate an extension-cord. This provides for general lighting as well as a trouble light, which may be used wherever needed.

"Before building your garage, it is a good idea to look around and take note of some of the best," suggests Mr. Hill. "There are hundreds of well arranged garages near by which had built into them the many features which you can duplicate, or perhaps, improve upon to fit your own ideas."

A cord tire carcass is almost human in the way it writhes and bends from head to head. The pull is so enormous that an anchor strip is the only practical way to bind the carcass to the edge of the head. The principle is the same as when the farmer builds an anchor post to stay his fence, or when a ship lets go an anchor to hold her at her moorings. The internal action of the cord tire, unnoticeable outwardly, is almost a serpentine glide—a smooth-flowing, rhythmical motion as graceful and easy as the waltz. The anchor strip in a cord is made necessary by this flexing. It surrounds the wire cable and the bead, and starts in the inside wall, looping down between the plies and around the bead. Air pressure, pushing out against the fabric, securely binds it in place. It is cured as an integral part of the tire.

As a result of discontinuance of service in 400 of the 500 garages around New York City in an effort to end the wage fight between owners and the Garage Workers' union, it is predicted that automobile "laundries" will soon make their appearance. These are stations where cars are washed and cleaned while the owners wait.

It is possible to make a pair of tongs that are convenient for removing nuts, etc., from the mud pan by flattening the ends of two pieces of No. 9 wire, each 30 inches long. Five inches from the end a hole is drilled through each wire and through these holes a bolt is thrust and fitted with a nut. This completes the tongs, which will be found invaluable for picking small objects out of the mud pan or from around the motor, etc.

The first public motor truck service to be established in China is operating within the city of Shanghai. A fleet of 25 trucks is engaged in transporting merchandise and each of the trucks in use carries four coolies.

An ingenious method of soldering aluminum is as follows: Drill the surface of the aluminum with as many small holes as possible at a slight angle. Drive in brass plugs for a tight fit and smooth off the pegs even with the surface. The surface should next be cleaned thoroughly and paste solder be applied with a hot soldering iron, after which the two surfaces are put together, heated and treated exactly as copper or brass.

David L. Day, now 88 years old, of Cheyenne, Wyo., recently visited his old home at Paris, Ky., covering the entire distance by automobile. In 1853 Day left Paris driving a pair of oxen to a wagon to try his fortune in the far west.

The Chicago fire department employs an emergency gasoline and oil truck for use at fires to replenish the fuel supply of motor fire engines. The truck has a hauling capacity of 510 gallons of gasoline and 65 gallons of oil.

When the doors on one side of the body do not fit properly, either bind so that they are hard to close or fit too loosely, with so much clearance that the catch will not snap, the trouble may be cured by placing wooden wedges under the body at the rear. Metal plates may also be used. In either case the wedge should be bolted through the frame so that it will remain firmly in place.

OBEY THE LAW

Do your part to prevent glaring headlights and consequent accidents.

Let us show you how to do it correctly and avoid trouble.

REMEMBER!

The light that serves you best, bothers the other fellow least.

It costs much less to have lights satisfactory to yourself, your fellow autoist and the traffic officer, than to pay fines.

"An ounce of prevention is worth a pound of cure."

Let us put you right, give you light and keep you out of trouble.

Resolution of Intention No. 1144

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE DECLARING ITS INTENTION TO CLOSE UP, VACATE, AND ABANDON FOR STREET AND ALLEY PURPOSES THAT CERTAIN ALLEY IN TRACT NO. 3196, IN THE CITY OF GLENDALE DESCRIBED HEREIN AND SPECIFYING THE EXTERIOR BOUNDARIES OF THE DISTRICT AFFECTED THEREBY.

THE BOARD OF TRUSTEES OF THE CITY OF GLENDALE DO RESOLVE AS FOLLOWS:

SECTION 1. That the public interest and convenience require, and it is the intention of the Board of Trustees of the City of Glendale to close up, vacate, and abandon for street and alley purposes all that certain ten (10) foot alley in Tract No. 3196 as per map recorded in Book 33, Page 38 of Maps, Records of Los Angeles County, California, more particularly described as follows:

Beginning at the most southerly corner of Lot 4, Tract No. 3196, as per map recorded in Book 33, Page 38, of Maps, Records of Los Angeles County, California; thence northwesterly along the southwesterly line of Lots 4, 3, 2, and 1 of said Tract 3196 to the most westerly corner of said Lot 1; thence in a direct line across said alley to the most northerly corner of Lot 6 of said Tract 3196; thence along the northwesterly line of Lots 6 and 5 of said Tract 3196, to the most easterly corner of said Lot 5; thence in a direct line across aforementioned alley to point of beginning.

SECTION 2. The exterior boundaries of the district of land to be affected by said work or improvement, and to be assessed to pay the damages, costs, and expenses, thereof are hereby specified and declared to be as follows, to-wit:

Beginning at the most westerly corner of Sixth Street and Winchester Avenue; thence northwesterly along the southwesterly line of Sixth Street to the most southerly corner of Vine Avenue and Sixth Street; thence southwesterly along the southeasterly line of Vine Avenue to the most westerly corner of Lot 6, Tract 3196 as per map recorded in Book 33, Page 38, Maps, Records of Los Angeles County, California; thence southeasterly along the southwesterly line of said Lot 6 to the most southerly corner thereof; thence southwesterly along the northwesterly line of Lot 5 of said Tract 3196 to the most westerly corner of said Lot 5; thence southeasterly along the southwesterly line of said Lot 5 to the northwesterly line of Winchester Avenue; thence northwesterly along said northwesterly line of Winchester Avenue to point of beginning.

SECTION 3. That the Street Superintendent of the City of Glendale is hereby directed to cause notice of the passage of this resolution to be posted at the places and in the manner required by law, and also to cause a notice similar in substance to be published as required by law in the Glendale Evening News, a daily newspaper of general circulation published and circulated in said City of Glendale and hereby designated as the newspaper in which said notice shall be published.

SECTION 4. The City Clerk shall certify to the passage of this resolution and cause the same to be published in the Glendale Evening News in the manner required by law.

Adopted this 26th day of November, 1920.

HARTLEY SHAW,
President of the Board of Trustees of the City of Glendale.

Attest:
J. C. SHERER,
City Clerk of the City of Glendale.

STATE OF CALIFORNIA)
COUNTY OF LOS ANGELES (SS.
CITY OF GLENDALE)
I, J. C. SHERER, City Clerk of the City of Glendale, do hereby certify that the foregoing Resolution was duly adopted by the Board of Trustees of the City of Glendale, State of California, and signed by the president of said Board at a regular meeting thereof held November 26, 1920, by the following vote, to-wit:

Ayes: Bartlett, Henry, Robinson, Shaw, Stephenson.
Noes: None.
Absent: None.

J. C. SHERER,
City Clerk of the City of Glendale.

NOTICE

NOTICE OF THE FILING OF THE REASSESSMENT FOR THE OPENING OF ORANGE STREET FROM THE NORTH LINE OF LEXINGTON DRIVE TO THE SOUTH LINE OF MILFORD STREET TOGETHER WITH A DIAGRAM OF THE DISTRICT TO BE ASSESSED FOR THE SAID IMPROVEMENT.

Public notice is hereby given that the City Manager, and ex-officio Street Superintendent of the City of Glendale, has filed with the Clerk of the Board of Trustees of the said City a reassessment for the opening and widening of Orange Street, as contemplated in Ordinance Number 347 and Number 354, together with the diagram of the district to be assessed therefor.

The date of the first publication of this notice is November 19th, 1920. All parties interested are hereby required to file in writing their objections to the confirming of said assessment by the said Board of Trustees within thirty (30) days after said date of the first publication of this notice, to-wit:

The 19th day of November, 1920. Persons signing objections must give postoffice address.
(Signed) J. C. SHERER,
City Clerk and ex-officio Clerk of the Board of Trustees.

GREAT CONVENIENCE BUSINESS IMPROVES

FOR AUTO OWNERS—PEOPLE IN NEW LOCATION DOING GOOD BUSINESS

The new automobile service station and second-hand mart at 245 South Brand Boulevard are doing a splendid business and Messrs. Kingsley, Johnson and McGrath are well pleased with the move they made when they located in these commodious quarters, which are so centrally situated. Under the one roof it is possible to have done body and fender work, engine and general auto work, radiator repairing, acetylene welding, auto tops repaired or entirely replaced; or, if you want to, you can buy a used car or sell or trade your old one, providing it is in the proper shape or can be put in good shape.

Mr. Kingsley has become the representative for the Warner-Stuart products, which include speedometers—the best that are made. He is also handling the Cole visible gas gauge, which is a new contrivance of great value to the autoist. By simply casting a glance at the instrument on the dashboard you can tell what quantity of gasoline remains in the tank.

By the way, it should not be forgotten that 245 South Brand Boulevard is open every night in the week until 12 o'clock. This gives you a chance to have your car fixed up after working hours and get it early the next morning.

RONALD'S PROPOSAL

Donald seemed much interested in his own shoes; indeed, one would not have thought he had just noticed them for the first time and the discovery was absorbing his whole interest. Why he should have devoted any thought to else but the lovely girl seated near him needed some explanation. But really, Ronald only saw his shoes with that eye which doesn't register on the brain.

The girl laughed.
"What's the matter? Do they hurt you?" she asked.

"Huh? What? I beg your pardon," he stammered. "Oh, no. Not at all. I was just thinking. Although they ought to; I've walked enough. Miles, I think. I've been looking at—at automobiles."

"No!" she exclaimed. "Really! Oh, tell me about it."

He hesitated.
"Well, I meant it as a surprise. There was something else I wanted to say. For three days now, I have been doing nothing but look at motor cars. It's got on my nerves. But I thought I'd ask you—that is, well, I wanted to know if you—I wanted to ask you something more important than automobiles."

"Yes," whispered the girl, blushing a little in spite of herself, but it passed unnoticed.

"Er—you see—Dorothy—can you—do you think you could love me?" he stammered.

"Why, I don't know—" she hesitated.

The Monarch Auto Supply Co. reports a decided improvement in sales of Goodyear tires since prices came down. They claim that in spite of the fact that many makes of tires were thrown on the market at unheard of prices, their Goodyear partisans either bought as needed or patiently waited for the inevitable drop in their favorite tire.

To the fact that many did succeed in holding out until the drop came can be attributed the very satisfactory increase in sales of these tires today.

In taking battery readings with the hydrometer, the operation should be performed before the distilled water is added to the solution, which will otherwise be diluted and a wrong reading given; also, after the water has been put in and it takes some time to mix with the acid. The water, being lighter, stays on top and if the hydrometer is used, say an hour after the water has been added, it will take up only a weak solution, which is not the real one.

During the fiscal years 1917-1920 the importations of passenger automobiles into Canada totaled 45,633, valued at \$35,829,393, of which eleven were from Great Britain, one from an unnamed country and the remainder from the United States.

Ronald seemed not to hear. A wild gleam had come into his eyes and suddenly he rudely plunged into a speech, as a man who has lost control of his mind.

"You look all right to me, y'know," he said. "Your lines are good and you're just about the size I want; the big ones are hell on upkeep."

"Why, Ronald—Mr. Jenks!" exclaimed the girl in amazement.

"I'll try you for six months anyway, and if you're as good as you look, then it's a go," he said, gazing blankly at the wall.

"There, there, you're only over tired, that's all," answered the girl. "Just wait here a moment and I'll bring you a nice drink of gasoline."

This gave her an opportunity to leave him and communicate the news to the husky butler who would put Ronald in the nice, cool outside air where he might freshen his twisted thoughts.—Harry Irving Shumway in Motor Life.

CONFUCIUS' TOMB A SHRINE

The graveyard of Shantung, ChuFu, lying one mile from the city gate, is noble expression of the dignity and mystery of death, says Nathaniel Peffer in Scribner's Magazine. Leading to it from the gate is a broad avenue of trees spanned half way by a stone arch of exquisite carving and majestic lines. The graveyard proper, which is really a park, is enclosed in a pink wall.

Within the graveyard any member of the K'ung clan, descendants of Confucius, may be buried, whether the person be a scholar or a coolie. At the farther end of the park is another wall, behind which are the tombs of Confucius, his son and his grandson. These consist of a piling up of earth, before which are a stone altar, a tablet inscribed with six Chinese characters, a stone urn flanked by two bronze candlesticks, and along its sides a few trees with shrubbery around it.

The K'ung family has enormous holdings of valuable property, the government remitting the taxes on much of the property and appropriating periodically for the maintenance and repair of the cemetery.

Ordinary insulation sometimes carbonizes:

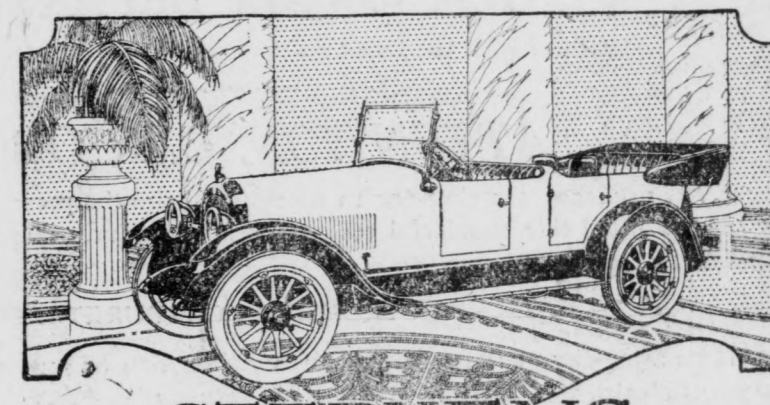

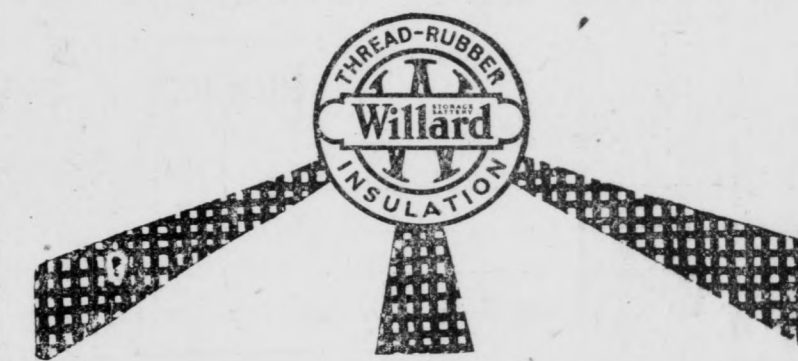

Threaded Rubber Insulation never does.

Ordinary insulation has to be replaced at least once during the life of the battery.

Threaded Rubber Insulation is on the job as long as you use the battery. It's the kind selected by 136 manufacturers of passenger cars and trucks.

Truth may hurt a little, but it takes a lie to cause a lot of complications.

The United States uses approximately 48,670,000 barrels of oil in a month.

Approximately 12,000,000 people live under the American flag outside of the continental area of the Union.

More than 73 per cent of the workers in factories in Japan are women.
